

Weekly Safety Meeting

Medical Services - First Aid

Instructor: _____ Date/Time: _____

OSHA Regulations

1910.151(b)

In the absence of an infirmary, clinic, or hospital in near proximity to the workplace which is used for the treatment of all injured employees, a person or persons shall be adequately trained to render first aid. Adequate first aid supplies shall be readily available.

Talking Points:

Point out the First Aid Kit on each truck and familiarize each employee with its contents. Inform employees that if first aid can't be rendered on jobsite to call 911 immediately.

1910.151(c)

Where the eyes or body of any person may be exposed to injurious corrosive materials, suitable facilities for quick drenching or flushing of the eyes and body shall be provided within the work area for immediate emergency use.

Talking Points:

SDS Sheet dictates the need for eye wash stations. Chemicals such as bleach and acids will require eye wash bottles at a minimum. Show employees where these are located in the first aid kit and demonstrate how they are used.

Employee Names or Signatures of personnel who attended the meeting
